Design and materials	
Height-adjustable dual spout	55 – 138 mm
White cup illumination	
Amber cup illumination	
Accessories	
Stainless steel vacuum milk container	optiona
Cup Warmer	optiona
Cool Control	optiona
In Figures	
Water tank capacity	1.1
Coffee grounds container (servings)	approx. 9
Bean container with aroma	
preservation cover	125 g
Cable length	approx. 1.1 m
Voltage	230 V AC
Power	1450 W
Energy consumption	10.6 Wh
Energy consumption with E.S.M. [©]	4.3 Wh
Stand-by power	0 W
Weight	9.9 kg
Dimensions (W \times H \times D)	23.9 × 32.3 × 44.5 cm
Checks	C
Colour	Platinum

Hygiene standards

Intuitive operation via self-explanatory touchscreen display

12 selectable specialities, now including latte macchiato doppio and cappuccino doppio

Aroma⁺ grinder now twice as fast for fully preserved aroma

Ingenious height-adjustable dual spout with fine foam technology

IMPRESSA A9

Slide & touch

Compact, slimline, straight-lined and unfussy, with a front in glossy Piano Black and side panels in unobtrusive platinum – the elegant A9 is a joy to behold. The fastest way to enjoy the perfect cup of coffee is via the intuitive colour screen with touch technology. The exquisite speciality coffees of the automatic one-touchcoffee machine are a palate-pleasing treat for all lovers of speciality coffee. The Aroma[†] grinder, fine foam technology and height-adjustable dual spout ensure perfection every time.

Intuitive operation via self-explanatory touchscreen display

Your four favourite specialities can be saved on the start screen and activated for preparation at any time with a gentle touch. The user-friendly operating concept extends to maintenance too. Just one touch and the integrated rinsing, cleaning and descaling programmes ensure TÜV-certified hygiene.

12 specialities available, including for the first time ever latte macchiato doppio and cappuccino doppio

The IMPRESSA A9 now features two completely new speciality coffees. The latte macchiato doppio and cappuccino doppio offer maximum flavour crowned with fine, feather-light milk foam. Thanks to the one-touch technology, you can prepare them without having to move the glass or cup.

Aroma⁺ grinder now twice as fast for fully preserved aroma

Durch die Perfektionierung der Schneidewinkel im Mahlkegel schafften die Ingenieure von JURA eine signifikante Effizienzsteigerung, die das Aroma in seiner natürlichen Vielfalt optimal erhält und zusätzlich die Mahldauer auf die Hälfte reduziert. Das garantiert vollendeten, puren Kaffeegenuss in verkürzter Zubereitungszeit bei verringerter Geräuschemission.

Ingenious height-adjustable dual spout with fine foam technology

The dual spout, height-adjustable on a continuous scale between 55 mm and 138 mm is equipped with state-of-the-art fine foam technology. It produces a soft light-as-air milk foam of an irresistible consistency for the perfect cappuccino or latte macchiato and is easy to dismantle and clean. Two separate pipe systems for coffee and milk guarantee perfect results and hygiene.
